EDUCATION

**Diploma in
Electronics Engineering**
Govt. Polytechnic Hardoi
2022-25

Percentage : 82%

Intermediate
UP Board
2022

Percentage : 76%

Higher Secondary
UP Board
2020

Percentage : 84%

EXPERTISE

- PCB Designing
 - Proteus
 - Altium
 - Easy EDA
- Embedded System & IoT
- Programming in C & Python
- Microcontroller Programing
 - Arduino(UNO, Mega, Nano)
 - ESP8266/ESP32
 - Raspberry (Pi, Pico)
- Circuit Testing & Troubleshooting
- Robotics & Automation
- AutoCAD, EWD
- Project Development & Management
- MS Office
- Web Development(HTML, CSS)
- Problem Solving
- Logical Thinking
- Team Collaboration
- Quick Learning

LANGUAGE

- Hindi
- English

PROFILE

Seeking an entry level job position in a reputed engineering firm in order to build a long term career by investing the best of my technical knowledge & educational qualifications and to serve the organization with an outstanding output.

WORK EXPERIENCE

INTERN

Techpile Technologies Pvt. Ltd. , Lucknow

I completed my apprenticeship training with a strong foundation in electronics fundamentals, PCB designing, advanced Embedded Systems and IoT, AI/ML basics, and introductory drone technology. I gained hands-on experience in AutoCAD, Electrical Wiring Diagrams, and PLC-SCADA, along with office management, documentation, teamwork, and valuable industrial exposure that strengthened my professionalism and discipline.

Summer Internship

Techpile Technologies Pvt. Ltd. , Lucknow

During my summer internship, I gained foundational knowledge in electronics, electrical systems, PCB design, and Embedded/IoT development using various microcontrollers. I also learned basic programming, circuit troubleshooting, and improved my communication and teamwork through personality development sessions. Additionally, I worked with hardware components and completed several practical projects.

ACHIEVEMENTS

- Awarded by **Techpile Technology Pvt. Ltd.** as a **Best Performer** of the batch.
- Awarded in **District Level Science Fair, Hardoi** for our project **Fire Fighting Robot**.
- Awarded in an Essay Writing Competition organized by **BIS**.
- I have an opportunity to visit in **UP International Trade Fair Show Noida**, giving by college.
- I visited **Varun Beverages Limited, Sandila & Paras Food Industries, Sandila** with the membership of **BIS**.

PROJECTS

• Fire Fighting Robot

Built an autonomous Fire Fighting Robot using Arduino that detects fire, moves toward the source, and activates an extinguishing mechanism to suppress the flames.

• Conveyor Based Product Sorting System

Developed a conveyor-based product sorting system that detects and counts small and large objects, automatically sorts them based on size data, and updates stock levels in real time for inventory management.

• Patient Assistance and Monitoring System

Designed a Patient Assistance and Monitoring System using ESP32 that measures pulse rate and room temperature, with a button and sensor-based alert mechanism for patients to request help instantly and improve safety.
